Bioscience association Manitoba marks Global Biotech Week

30 September 2024 | News

Official Proclamation at the Canadian province Manitoba Legislature

Official Proclamation at the Canadian province Manitoba Legislature

The Bioscience Association Manitoba (BAM) successfully held Global Biotech Week with an official proclamation at the Manitoba Legislative Building. The event brought together 80 Manitoba industry leaders, and government officials, celebrating the provinceâ??s thriving biotech industry and its contributions to global innovation.

The formal proclamation of Global Biotech Week, presented by The Honourable Renee Cable Minister of Advanced Education and Training, recognizes the pivotal role biotechnology plays in addressing critical challenges, from healthcare innovations to sustainability solutions.

The event highlighted the critical impact on biotechnology in areas such as health, agriculture, and sustainability. The event also provided Global Biotech Week is celebrated across 16 countries, showcasing the transformative power of biotechnology.

With Manitoba leading the way in bioscience research and development, BAM remains committed to fostering the growth and advancement of the local industry, while highlighting the global impact of biotech.
