Ideal B2B platform for enterprises, research and educational institutions and other related organisations

EU-Japan Green Transition Business Matchmaking Platform

Ideal B2B platform for enterprises, research and educational institutions and other related organisations

The EU-Japan Centre for Industrial Cooperation is organising an EU-Japan Green Transition Business Matching Platform, that aims at bringing together companies, startups and research organisations from Japan and Europe for partnerships that contribute to a low-carbon society. The platform was launched on 3 January 2024. The matchmaking event is stage on 15-22 Feb 2024. The Centre partners with various stakeholders in Japan to mobilise Japanese corporations.

In partnership with many stakeholders in Europe and Japan, the EU-Japan Centre organises an "EU-Japan Green Transition" matchmaking event for the third year in a row. The event is for companies as well as research organisations from Japan and EU interested in building business partnerships that contribute to a low-carbon society.

EIC beneficiaries have a great chance to promote their Green Transition solutions on this platform.

The EU-Japan Green Transition platform offers opportunities for online meetings on 15-22 February 2024 and onsite meetings in Tokyo during the [Smart Energy Week](#) / [Green Transformation Week](#) on 28 Feb - 1 March. Online pitching and other webinars are part of the agenda.

The platform will also be open to hosting webinars related to the Green Transition topic.

The main target areas are:

- Electrolysers and fuel cells

- Battery/storage technologies
- Solar photovoltaic and solar thermal technologies
- Grid technologies
- Onshore wind and offshore renewable technologies
- Sustainable biogas/biomethane technologies
- Carbon Capture and storage (CCS) technologies
- Heat pumps and geothermal energy technologies
- Low-carbon construction and manufacturing/ green materials
- Product lifecycle management (PLM) and Recycling

Access to this platform is reserved for representatives of enterprises, research and educational institutions and other related organisations, that are active in the above target fields and based in Japan, the European Union or Single Market Programme (SMP) countries.
