Hosts "Achievements Exhibition and Seed Industry Innovation Summit" in Zhengzhou attracting over 700 distributor partners from across China

Hosts "Achievements Exhibition and Seed Industry Innovation Summit" in ZhengzhouÂ attracting over 700 distributor partners from acrossÂ China

Origin Agritech Ltd., a leading Chinese agricultural technology company showcased Origin's latest product portfolio, including four new corn varieties: Jingke 317, Jinqiao 8, Xundan 203, and Aoyu 728 at the Achievements Exhibition and Seed Industry Innovation Summit held inÂ Zhengzhou,Â Henan Province. FieldÂ demonstrationsÂ allowedÂ distributorsÂ toÂ observeÂ theÂ agronomicÂ performanceÂ ofÂ varietiesÂ thatÂ haveÂ undergoneÂ yearÂ testingÂ andÂ regulatoryÂ approvalsÂ acrossÂ severalÂ provinces.

TheÂ summitÂ inÂ Zhengzhou,Â HenanÂ Province,Â broughtÂ togetherÂ overÂ 700Â distributorsÂ andÂ 30Â industryÂ experts,Â sho

Origin Agritech featured varieties to demonstrate continued R&D expertise:

- **Jinqiao 8:** Approved for introduction in five provinces (certificate no.:Â Anhui:Â Wan Shen YuÂ 20211001;Â Jiangsu:Â Su Yin ZhongÂ 2022-059,Â Shandong:Â Lu Yin ZhongÂ 2022078,Â Henan:Â Yu Yin ZhongÂ 2022 Yu 096;Â Hubei: E Yin Zhong 2023131)
- **Jingke 317:** Approved in National Trial (certificate no.Â Guo Shen YuÂ 20243348)
- **Aoyu 728:** Approved in National TrialÂ (certificate no.Â Guo Shen YuÂ 20226136)
- **Xundan 203**: Approved inÂ Henan ProvinceÂ (certificate no.Â Yu Shen YuÂ 20242023)

Origin's breeding programs continue to focus on developing varieties with enhanced stress tolerance, yield optimization, and commercial viability suited toÂ China'sÂ diverse agricultural conditions.

During the summit, CEOÂ Weibin YanÂ outlined Origin's eight-year strategic development plan, emphasizing the Company's commitment to building a leading position inÂ China'sÂ seed industry. The event also marked the launch of the "Golden Harvest Club," a strategic alliance designed to strengthen relationships within Origin's distribution ecosystem.

The summit featured expert presentations from leading agricultural researchers, including Professor Dai Jingrui from China Agricultural University, Chief Corn Scientist Wang Haiyang from Yazhou Bay National Laboratory, and Researcher Zhao Jiuran from Beijing Academy of Agricultural and Forestry Sciences, who endorsed the Jingke 317 variety he developed.
