

Malaysia and Iran to cooperate in the field of agri research

23 January 2023 | News

A cooperation agreement is expected to be signed between the Malaysian Agricultural Research and Development Institute (MARDI) and the Agricultural Research, Education and Extension Organisation (AREEO).

A cooperation agreement is expected to be signed between the Malaysian Agricultural Research and Development Institute (MARDI) and the Agricultural Research, Education and Extension Organisation (AREEO).

Iran and Malaysia to share their experience and expertise in the field of agricultural research and development as well as the latest technology in crop irrigation and water management systems.

Mohamad Sabu Minister of Agriculture and Food Security and Ali Asghar Mohammadi Iranian Ambassador to Malaysia discuss the cooperation during a meeting at the Ministry of Agriculture and Food Security (MAFS).

According to the local media, the meeting was held to enhance bilateral cooperation in agriculture, especially in the field of research and development.

A cooperation agreement is expected to be signed between the Malaysian Agricultural Research and Development Institute (MARDI) and the Tehran-based Agricultural Research, Education and Extension Organisation (AREEO) soon.
