The fund will be utilised to expand into newer geographies, scale up operations and invest in technology

Agri-fintech firm Dvara E-Dairy Solutions has raised pre-Series A funding of \$2 million (around Rs 15.4 crore) from Axilor and Dvara Venture Studio, an initiative of Dvara Holdings.

The funds will be used to expand into newer geographies, scale up operations and invest in technology.

“The investment will propel us forward in our mission to enhance the livelihoods of millions of small and medium dairy farmers across the country,” said Ravi KA, CEO of Dvara E-Dairy Solutions.
