The strategic partnership between C-BIO and Mitsui & Co. to enhance, improve and boost overall growth strategy of C-BIOâ??s biostimulant products

Ireland (Donegal) headquartered C&B Agri Enterprise Ltd (C-BIO) has announced the acquisition of a share in its Irish biostimulants manufacturing unit by Japanese firm Mitsui & Co. Ltd. (Mitsui).

C-BIO and Mitsui & Co. will partner to enhance, improve and boost the overall growth strategy of C-BIOâ??s biostimulant products.Â

C-BIO produces and distributes biostimulant products derived from seaweed and marine-derived amino acids. The products are highly competitive, organic and perfectly in accordance with historic Irish farming methods and make an important contribution to farmers in European, American and Asian countries looking to improve their crops. A wide range of crops are shown to respond extremely well to C-Bio's CPS product, which uses 100% pure Ascophyllum Nodosum and is manufactured using a unique cold extraction process.

Mitsui is a global trading and investment company with a diversified business portfolio that spans 63 countries/regions in Asia, Europe, North, Central & South America, The Middle East, Africa and Oceania along with 128 offices and overseas trading affiliates.As part of Mitsui's vision to provide sustainable crop production solutions, partnering with C-BIO will drive C-BIO business to the next level by developing a robust and reliable partner for growers worldwide.
