

China's Guizhou unveils Agricultural Products Directory with 80 premier agricultural brands

18 May 2023 | News

The directory includes three national agricultural brands, Guizhou's top ten provincial brands, and nine city/prefecture brands, as well as detailed information about these brands.

The directory includes three national agricultural brands, Guizhou's top ten provincial brands, and nine city/prefecture brands, as well as detailed information about these brands.

Under China's Department of Agriculture and Rural Affairs of Guizhou Province, a directory of agricultural products from Guizhou has been launched in Shanghai, revealing 80 prominent and distinguished agricultural brands of Guizhou Province.

The directory includes three national agricultural brands, Guizhou's top ten provincial brands, and nine city/prefecture brands, as well as detailed information about these brands.

Representatives of Guizhou's major agricultural brands showcased their products, including Job's Tears Seeds, Guizhou Mushrooms, Guizhou Tea, and Duyun Maojian Tea.

The directory was unveiled at the launch ceremony at the Shanghai International Convention and Exhibition Center, jointly organized by the Department of Agriculture and Rural Affairs of Guizhou Province and the Development and Reform of Guizhou Province. Bu Tao, Deputy Director of the Department of Agriculture and Rural Affairs of Guizhou Province, introduced the directory.

Tian Xiaohong, Deputy Secretary-General of the Silk Road International Chamber of Commerce (SRCIC), said, "This conference demonstrates Guizhou Province's determination and confidence to develop agricultural brands in the series "Mistletoe". SRCIC will leverage the power of our platform and channels to help Guizhou's agricultural industry, businesses

and brands find partners on the global market. We hope to contribute to Guizhou's unique agricultural industry development."

China's Guizhou province is located in the southwestern region and is rich in soil fertility and biodiversity. The directory includes 14 categories carefully selected and evaluated by experts over the past two years. These selected brands are in the public domain and may be adopted by qualified agricultural producers in their designated areas.
